MINI HAND WARMERS

STAY WARM AND COMBAT THE COLD!

AIR ACTIVATED HEATING

- A simple, yet effective technology
- Simply tear open the package and wait 10 minutes for them to heat up fully

- Works by combining several natural elements such as carbon, iron powder and vermiculite to generate an exothermic reaction
- Environmentally safe (non-toxic)

P/N 59205

8 HOURS OF WARMTH!

- Mini Hand Warmers deliver up to 8 hours of air activated heat and relief from the cold
- Warmers maintain a minimum temperature of 104°F, average temperature of 135°F and maximum temperature of 156°F
- Heating can be suspended at any time by resealing the inserts in an airtight container or plastic bag

P/N 59203 & 59204

APPLICATIONS

- Industrial Safety
- Construction
- Emergency Services
- Military
- Rail Yards
- Outdoor Maintenance
- Outdoor Recreation
- Motor Biking

IDEAL SIZE FOR USE WITH WINTER WATERPROOF GLOVES!
