Price**

\$19.98/ea.

- Super strong
- 100% Quality Nitrile
- Superior durability, comfort and protection against day-to-day hazards
- Chlorinated and quadruple leached
- The most comfortable long wearing glove possible
- 100 Gloves per box

NATURAL 5.5 pH LEVEL!
Why is this so important?

- Healthy skin naturally has a slightly acidic pH of about 5.5
- Industrial workers' most valuable assets are their hands
- Using gloves with an incorrect pH level can lead to damage (dry, cracked, chapped hands)
- This increases the chance of hands becoming a means of bacteria or virus transfer

The NEW 5.5 pH comfort coating feature is a natural solution to aid your skin's own mechanism in restoration and repair efforts!

Take a preventive stand with Black Lightning™ Gloves!
