DIAMOND/DOUBLE TANG RECIP SAW BLADES

P/N 19285 - 11" LENGTH

Special Price \$23.15/ea.

DOUBLE TANG

- **LASTS 6X LONGER**

Nickel alloy-brazed diamond particles maintain sharpness to keep cutting after conventional carbide grit fails. Double tang extends the life of the blade six times longer.

- **CUTS 3X FASTER***

A narrow kerf design enables thinner, faster cuts.

- **DOUBLE TANG**

Allows end user to flip blade around reducing amount of wasted grit and maximizing cost per cut.

- **STRAIGHT, CLEAN CUTS**

Unlike bulky snap cutters which crush pipes and leave ragged, uneven cuts, LENOX DIAMOND cuts clean.

- **VERSATILE**

Cuts cast iron, tile, brick and natural stone.

*Speed measured cutting 4" cast iron pipe at maximum speed vs. the leading competitor.

PRICES EFFECTIVE NOVEMBER 1ST - NOVEMBER 30TH 2013
