FREE... with a qualifying order.**

Pedometer with USB Data Connection

Specifications:

Size: 2-15/16" x 1" x 1/2"

- 3D accelerometer sensor function
- Operates in Metric or Imperial system
- Multifunction pedometer records distance walked, exercise time and calories burned
- Stores and recalls up to thirty days of data in memory
- Records & measures progress towards targeted goal
- Exercise data can be transferred to PC or Mac with built in USB plug
- Includes website access
- Recharge with USB plug - charging time is 2.5 hours
- Full charge lasts up to 14 hours
- Energy saving auto shut-off and idle mode
- Anodized aluminum faceplate and easy to read backlit display with clock, low battery indicator and touch sensor controls

Accelerometer step counting function is intended for continuous walking exercise sessions. Intermittent step counts may not be recorded accurately. An accelerometer is an instrument used to measure acceleration and may count vehicle movement as steps.
