FOR MORE INFORMATION ON OUR PRODUCTS OR SYSTEMS, CALL 1-800-BUY-BOLT

# *Our Highly Trained Technical Representatives Develop Your Modular Military MRO System To Meet The Needs Of Your Specific Mission!*

- The military conducts combat operations in ever changing situations, thus everything for combat sustainment must be mobile.
- Re-supply must be easy to obtain and timely.
- With a proven record as the industry leader in modular workspace mobilization, only the Chromate team has the knowledge and know-how to help you plan and build your Deployment System.
- We are a leading supplier of high quality maintenance products and inventory management services.
- We have provided "Systematic Solutions" to industries and the Government for over 45 years.
- Our modules can be used to build a custom motor pool system or mobilized to meet your deployment needs.
- Your system will be designed and customized to fit the needs of your combat unit's mission. We listen to your needs.
- Built to fit your container of choice. However, hydraulic set-up must be in a Tri-Con or larger container.
- Custom CAD drawings of your unique Deployment System are provided upon request.
- Chromate provides you with a "TURN KEY" set-up! We do all the work. **YOU JUST USE IT!**
- Your overseas order is assembled and shipped complete directly to your supply warehouse as a CLASS IX item.

## *Types of Military MRO Modules*

The modules are broken down by type of item and include:

- Electrical
- Hydraulic
- General Repair
- Drills
- Cutting Tools and Abrasives
- Fasteners

We provide a comprehensive inventory of resupply items to keep your inventory stocked no matter if you are at home station or deployed.

## Entering An Order - J

**For the SOS (Source of Supply) block, input the characters SMS. This indicates that the item is DLA managed.**

**The CIIC (Controlled Inventory Item Code) automatically populates with the character U for unclassified.**

**Leave all other blocks blank until you get to the DML (Demilitarization Code) block. This code indicates what steps you have to take to dispose of the item. The character A indicates that demilitarization is not required.**

# SAMS 1

## Entering An Order - K

When the DCR prompt comes up, you can change the priority that are ordering under next. If you change the priority to an 02, SAMS1-E The next block is the RDD (Required Delivery Date) block. When you are overseas on an 02 priority request, this is always 999. That indicates that you need this immediately will ask you if this is for an anticipated NMC fault. On the popup click NO.

**DCR - Prompt**

# SAMS 1

## Entering An Order - L

The screenshot shows the SAMS 1 Enhanced software interface. The main window is titled 'Catalog Management' and displays a table of items. The table has columns for FSC, NIIN/Part, Noun, UI, Unit Price, AAC, RC, EC, SMC, SOS, MATCAT, and Local Record. Two items are listed:

| FSC   | NIIN/Part | Noun                  | UI | Unit Price | AAC | RC | EC | SMC | SOS | MATCAT | Local Record                        |
|-------|-----------|-----------------------|----|------------|-----|----|----|-----|-----|--------|-------------------------------------|
| 4N632 | C9411142  | MODULE MAINT_ABSCUTSL | KT | \$3,302.98 | J   | Z  | G  | 9K  | SMS |        | <input checked="" type="checkbox"/> |
| 1b23b | BC619021  | WASHER 5              | EA | \$0.76     | J   | Z  | G  | 9K  | SMS |        | <input checked="" type="checkbox"/> |

A callout box with a white background and black border points to the 'Part Number' column of the second row. The text inside the callout box reads: 'When browsing for the item in the catalog, you must use the Part Number, not the CAGE.'

At the bottom of the screenshot, there is a red banner with the text 'A BRIDGE TO THE FUTURE'.
